

## Automation

The Automation tab is displayed if enabled when setting up your account. This allows you to add, edit, activate or delete Z-wave Favorites, Lights, Doors, and Thermostats and assign available Outputs.

### Z-Wave

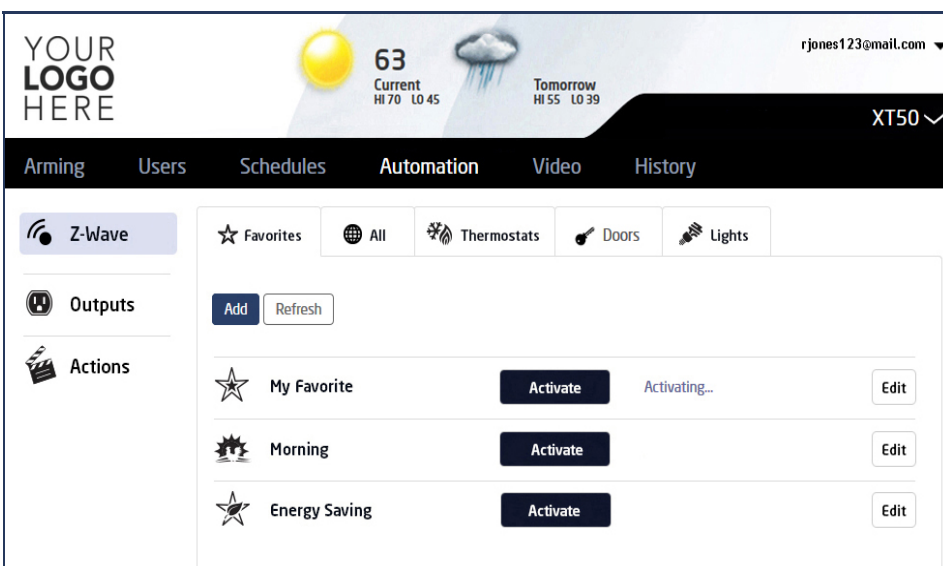

#### Refresh Z-Wave Favorites

The Refresh button is used to pull existing Z-Wave Favorites from the panel and update the list in the event one may have been added at the keypad.

#### Add a Z-Wave Favorite

To add a new Favorite:

1. Click the Z-Wave button.
2. Click the Favorites tab to display the Favorites list.
3. If there are any unused Arming schedules available, Arming will display in a list.

4. Click the Add button.
5. The Edit Favorite dialogue box displays. Enter name for the Favorite to be added.
6. Click the check box next to the device you want to add or remove from the Favorite. You may also select the status of the device. For example:
  - Doors - Unlock or Lock
  - Garage Doors - Open or Closed
  - Lights - Off, On, or Dim Level
  - Thermostats - Off, Heat, Cool, Auto, Temperature, Fan Auto, or Fan On
7. You may add or change the icon for the Favorite by clicking the Choose an Icon button. This displays all available icons. Click the desired icon to select.
8. Click Create to save your Favorite and it will display in the Favorites list.

#### Edit a Z-Wave Favorite

To edit a Favorite:

1. Click the Z-Wave button.

2. Click the Favorites tab to display the Favorites list.
3. Click the Edit button next to the Favorite to be edited.
4. The Edit Favorite dialogue box displays with all available Z-Wave device listed.
